a Same temperature on the 27th.

b Same temperature on the 29th.

c Observations taken at sunrise, noon, and sunset.

d Same temperature on the 26th.

e Same temperature on the 24th.

f Same temperature on the 29th, 30th, and 31st.

g Observations taken at 7½ a. m., 1 p. m., and 6 p. m. Incomplete.

h Same temperature on the 23d.

i Same temperature on the 31st.

j Same temperature on the 25th.

k Observations taken at 9 a. m., 1 p. m., and 4 p. m.

l Same temperature on the 2d and 31st.

m Same temperature on the 28th.

n Observations taken at 8 a. m., 12 m., and 2, 6, and 8 p. m. Mean at 12 m., 35. 24; mean at 6 p. m., 23. 80.

o P. M. observations discontinued after the 17th of the month.

p Same temperature on the 22d.

q Same temperature on the 17th and 31st.

r Observations interrupted, for the most part, from the 15th to the 25th of the month.

s Observations taken at sunrise and sunset.

t For the first 26 days of the month only.

\* The maxima, being generally 100, or complete saturation, are omitted in this table.

a According to the tables used by the observer.

b According to the Smithsonian tables.

c Same amount on the 23d.

d Same amount on the 28th.

e For changes in hours of observation, &amp;c., see table of the thermometer for this month.

f For changes in hours of observation, &amp;c., see table of the thermometer for this month. Dalton's hygrometer.

g Simmons's organic hygrometer.

h Same amount on the 25th.

i Same amount on the 19th.

j Same amount on the 22d.

k Incomplete.

l Same amount on the 31st.

m Mean force of vapor for the month, .190, obtained approximately from the mean dew point.

a Mean force of vapor for the month, .554, obtained approximately from the mean dew point.

b Same amount on the 29th.

c For changes in hours of observation, &c., see table of the thermometer for this month.

d For the last 19 days of the month only.

e Same amount on the 24th.

f Same amount on the 16th.

a Mean force of vapor for the month, .887; obtained approximately from the mean dew point.

b Same amount on the 29th.

c For changes in hours of observation, &c., see table of the thermometer for this month.

d Same amount on the 31st.

e For the first 17 days of the month only.

f Observations taken at 3½ and 5¼ a. m., and p. m. Mean force of vapor, .612; mean relative humidity, 81.2.

g Same amount on the 9th and 31st.

## No. 34.—PSYCHROMETER, SEPTEMBER, 1857.

\* In cases where the observer recorded only the depth of snow as it fell, without melting, it is estimated in this table as equal to one-tenth of that depth in water; and whenever, from this cause or any other, there is reason to doubt the accuracy of the record, it is indicated by affixing a mark of interrogation.

## No. 50.—INCHES OF RAIN AND MELTED SNOW, 1857.

NAME OF STATION.	January.	February.	March.	April.	May.	June.	July.	August.	September.	October.	November.	December.	Total for the year.

\* The maxima, being generally 100, or complete saturation, are omitted in this table.

a According to the Smithsonian tables.

b According to tables used by the observer.

c Same amount February 2d and 11th.

d Same amount January 19th.

e Same amount June 14th and 16th.

f Mean force of vapor .511; obtained approximately from the mean dew point.

g For 11 months only; August wanting.

h Same amount April 23d.

i Same amount January 20th, 22d, and 23d, and February 14th.

j Same amount January 19th and 31st.

a Register thermometer.

b Same temperature on the 10th.

c Observations taken at 9 a. m. and 9 p. m.

d Same temperature on the 31st.

e Observations taken at sunrise, 2 p. m., and 10 p. m.

f Same temperature on the 26th.

g Observations at sunrise and sunset.

h Same temperature on the 8th.

i Same temperature on the 5th, 7th, and 23d.

j Observations taken at 6 a. m., 2 p. m., and 10 p. m.

k Same temperature on the 21st.

l Same temperature on the 20th and 21st.

m Same temperature on the 3d.

n Same temperature on the 17th.

o Same temperature on the 18th.

p Observations taken at 7 a. m., 2 p. m., and 7 p. m.

q Same temperature on the 4th.

r Same temperature on the 13th.

s Incomplete.

t For the last 26 days of the month.

u Observations taken at 6 a. m., 1 p. m., and 10 p. m.

v Same temperature on the 15th.

w Same temperature on the 18th and 30th.

a Register thermometer.

b Same temperature on the 2d.

c Observations taken at sunrise, 2 p. m., and 10 p. m.

d For the last 21 days of the month.

e Observations at sunrise and sunset.

f Observations taken at 6 a. m., 2 p. m., and 10 p. m.

g Same temperature on the 15th.

h Same temperature on the 14th, 15th, and 29th.

i Same temperature on the 14th.

j Same temperature on the 5th.

k Same temperature on the 21st.

l Observations taken at 7 a. m., 2 p. m., and 7 p. m.

m Observations interrupted from the 12th to the 17th of the month.

n Observations taken at sunrise, 1 p. m., and 10 p. m.

o Same temperature on the 29th.

p Same temperature on the 20th.

q Observations taken at 8 a. m., 2 p. m., and 9 p. m.

a Observations taken at 6 a. m., noon, and 7 p. m.

b Same temperature on the 19th.

c For the last 22 days of the month.

d Same temperature on the 22d.

e Same temperature on the 30th.

f Observations taken at sunrise and sunset.

g Same temperature on the 3d.

h Observations taken at 6 a. m., 9 a. m., 3 p. m., and 9 p. m. Mean

at 9 a. m., 39.00.

i Observations taken at 9 a. m., 12 m., 3 p. m., 6 p. m., and 9 p. m.

Mean at 12 m., 67.46; and at 6 p. m., 66.79.

j Observations taken at 7 a. m. and 3 p. m.

k Same temperature on the 26th.

l Observations taken at 7 a. m., 2 p. m., and 8 p. m.

m Observations taken at 7 to 9 a. m., and at 10 to 11 p. m.

n Same temperature on the 29th.

o Observations taken at noon for 23 days only.

p Same temperature on the 3d, 6th, and 10th.

q Mean obtained from daily maximum and minimum.

r Same temperature on the 20th.

s Observations taken at 6 a. m., noon, and 6 p. m.

t Same temperature on the 7th and 11th.

u Same temperature on the 7th.

v Observations taken at 6 a. m., 9 a. m., noon, 3 p. m., and 9 p. m.

Mean at 9 a. m., 62.06; mean at noon, 68.18.

w Observations taken at 6 a. m., 2 p. m., and 6 p. m.

x Observations taken at 6 a. m., noon, 6 p. m., and 10 p. m. Mean

at 6 p. m., 62.22.

y Same temperature on the 15th.

\* The maxima, being generally 100, or complete saturation, are omitted in this table.

a For changes in hours of observation, &amp;c., see table of the thermometer for this month.

b Same amount on the 22d.

c Same amount on the 9th.

d Same amount on the 31st.

e Same amount on the 26th.

f Mean relative humidity, 62.5. For changes in hours of observation, &amp;c., see table of the thermometer for this month.

g Same amount on the 16th.

\* The maxima, being generally 100, or complete saturation, are omitted in this table.

a For changes in hours of observation, &amp;c., see table of the thermometer for this month.

b Same amount on the 28th.

c Mean relative humidity, 53.4. For changes in hours of observation, &amp;c., see table of the thermometer for this month.

d Same amount on the 18th.

e For the last 15 days of the month.

f Same amount on the 30th.

a Mean force of vapor, .293; obtained approximately from the mean dew point.

b Same amount on the 26th and 27th.

c Same amount on the 25th.

d For changes in hours of observation, &c., see table of the thermometer for this month.

e Same amount on the 19th.

f Same amount on the 16th.

g Observations taken at 6 a. m., 9 a. m., 3 p. m., and 6 p. m. Mean force of vapor at 9 a. m., .181. Mean relative humidity at 9 a. m., 86.

h Observations taken at 6 a. m., 9 a. m., 3 p. m., and 9 p. m. Mean force of vapor at 9 a. m., .193. Mean relative humidity at 9 a. m., 80.

\* In cases where the observer recorded only the depth of snow as it fell, without melting, it is estimated in this table as equal to one-tenth of that depth in water; and whenever, from this cause or any other, there is reason to doubt the accuracy of the record, it is indicated by affixing a mark of interrogation.

a Register thermometer.

b Same temperature on the 27th.

c Observations taken at 9 a. m. and 9 p. m.

d Observations taken at sunrise, 2 p. m., and 10 p. m.

e Observations taken at sunrise and sunset.

f Observations taken at 6 a. m., 2 p. m., and 10 p. m.

g Same temperature on the 14th.

h Same temperature on the 14th, 24th, and 28th.

i Same temperature on the 2d.

j Same temperature on the 17th.

k Same temperature on the 3d.

l Same temperature on the 24th.

m Same temperature on the 29th.

n Same temperature on the 18th.

o Same temperature on the 14th and 28th.

p Same temperature on the 28th.

q Observations taken at sunrise, 1 p. m., and 10 p. m.

r Same temperature on the 23d.

s Same temperature on the 17th and 28th.

k Same temperature on the 22d.

l Same temperature on the 8th, 9th, and 28th.

m Same temperature on the 24th.

n Same temperature on the 5th.

o Observations taken at 9 a. m., 12 m., 3, 6, and 9 p. m. Mean at 12 m., 73.00; mean at 6 p. m., 72.48.

p Observations taken at 7 a. m., 2 p. m., and 8 p. m.

q Observations taken at 6 a. m. to 8 a. m., and 9 p. m. to 11 p. m.

r Mean obtained from daily maximum and minimum.

s Same temperature on the 13th.

t Observations taken at 3½ a. m., 9½ a. m., 3½ p. m., and 9½ p. m.

u Same temperature on the 27th.

v Same temperature on the 5th, 6th, and 8th.

w Same temperature on the 7th.

x Observations taken at 4 a. m., 10 a. m., 4 p. m., and 10 p. m.

y Observations taken at 6 a. m., 2 p. m., and 6 p. m.

z Same temperature on the 4th, 6th, 7th, and 12th.

a For changes in hours of observation, &c., see table of the thermometer for this month.

b For the last 14 days of the month only.

c Observations taken at 6 a. m., 9 a. m., 3 p. m., and 6 p. m. Mean force of vapor at 6 a. m., .103; mean relative humidity, 81.

d Same amount on the 13th.

e Observations taken at 6 a. m., 9 a. m., 3 p. m., and 6 p. m. Mean force of vapor at 6 a. m., .091; mean relative humidity, 72.

f Same amount on the 10th.

a For changes in hours of observation, &c., see table of the thermometer for this month.

b Same amount on the 19th.

c Same amount on the 23d.

d Observations taken at 6 a. m., 9 a. m., 3 p. m., and 6 p. m. Mean force of vapor at 6 a. m., .145. Mean relative humidity, 81.

e Observations taken at 6 a. m., 9 a. m., 3 p. m., and 6 p. m. Mean force of vapor at 6 a. m., .135. Mean relative humidity 77.

f For the last 22 days of the month only.

g Same amount on the 30th.

\* In cases where the observer recorded only the depth of snow as it fell, without melting, it is estimated in this table as equal to one-tenth of that depth in water; and whenever, from this cause or any other, there is reason to doubt the accuracy of the record, it is indicated by affixing a mark of interrogation.

a On the ground.

b Thirty feet above the ground.

c Without rain gauge.

d Old tin gauge.

e Smithsonian gauge.

f New brass gauge.

g Estimated without rain gauge.

## No. 50.—INCHES OF RAIN AND MELTED SNOW, 1859.

NAME OF STATION.	January.	February.	March.	April.	May.	June.	July.	August.	September.	October.	November.	December.	Total for the year.

a Fractions less than one-tenth of an inch not recorded.

b Estimated without rain gauge.

c Probably a portion of this fell in the latter part of June.

d It is probable that the amounts of rain at this place should be increased about 6½ per cent., on account of an imperfection in the gauge.

SOUTH AMERICA—														
Catharina Sophia, Surinam (b) .....	.769	.850	.848	Sept.	17	.997	Mar. 10	.577	89	69	84			

a Same amount March 23d.

b For changes in hours of observation, &amp;c., see tables of the thermometer.

c Same amount April 1st and 10th, and December 4th.

d Same amount January 10th, 22d, and 23d, and May 3d and 9th.

e Same amount March 1st, April 14th, May 17th, and December 30th.

f Observations taken at 6 and 9 a. m., and 3 and 6 p. m. Mean force of vapor at 9 a. m., .228; mean relative humidity at 9 a. m., 84.

g Observations taken at 6 and 9 a. m., and 3 and 6 p. m. Mean force of vapor at 9 a. m., .233; mean relative humidity at 9 a. m., 74.

h Same amount January 6th and 22d.

i Same amount December 1st.

j Observations taken at 7 a. m., 2 p. m., and 8 p. m., and "humidity reduced to 1500000 water in the cubic space of air."

k Same amount May 2d.

l Mean force of vapor for the year, .619; mean relative humidity, 81; minimum humidity, 39. Observations taken at 3½ a. m., 9½ a. m., 3½ p. m., and 9½ p. m.

m Mean force of vapor at 4 a. m., .465; mean relative humidity at 4 a. m., 95. For hours of observation see monthly tables of the thermometer.
